

KATHFEST 2019

Solving the Problems of Nepal

KATHFEST 2019 is the annual festival of Kathford college of Engineering and Management. This event will be focused on showcasing art, technology and innovation. Variety of students from different faculties like Engineering, IT, BBA and +2 will be participating in the event. This annual event will be conducted for two days and will consist of different competitions.

The theme for Kathfest 2019 is "Solving the problems of Npal". With the aim of solving the ongoing problems in Nepal through technology and engineering, Kathfest 2019 is being planned.
